Section 3 – Assessment

How the qualification is assessed

The assessment strategy for this Diploma will be designed by the provider to ensure that a student's confidence and skills are sufficiently developed in order that they are prepared for the rigorous assessment regimes that they will encounter when they progress onto programmes of study in higher education. The provider must ensure that appropriate quality assurance mechanisms are in place, for example internal moderation, team meetings, standardisation and student representation.

Centres are encouraged to consider using a variety of assessment methods to prepare the learner for study at a higher level in their relevant subject area. These include:

- essay writing
- reports
- presentations
- practical
- academic displays
- discussions
- reflection
- role play
- research projects
- field work
- time constrained assessment

The assessment method for the qualification is by internally set assessments. Centres are free to devise their own assessments for each unit delivered.

Evidence

Assessments will enable students to generate sufficient evidence to cover all assessment criteria for the unit and to demonstrate differentiated achievement. Students will be provided with unit details at the onset of each unit, including details of the assessment and grading requirements for each unit. Where integrated assessments are used, these will clearly signpost the specific unit learning outcomes and grade descriptors/components that are being assessed via the specified task(s).

The AVA would expect all elements of assessment practice, whether activities and their timing, evidence or feedback; to meet the following key principles of assessment as outlined below:

- Authenticity
- Fitness for purpose
- Inclusivity
- Sufficiency, reliability, and consistency
- Validity

The AVA expects centres to keep all elements of their assessment practice under constant review to ensure that the key principles are met. Centres are required to produce their assessment plan prior to the commencement of the course. This will be viewed by the AVA and shared with each relevant Diploma Moderators. In developing a unit assessment plan, tutors should plan an assessment programme that meets the development needs of students and the demands of the unit in as few assignments as possible. Guidance on our expectations is available in the [AIM Qualifications: Access to HE Provider Handbook](#).

Assessment Planning - When planning assessment for a unit, centres need to be aware of the:

- level and credit value of the unit
- status of the unit – graded or ungraded
- Learning Outcomes (LO) and Assessment criteria (AC)
- Grading Standards and Components

If just one assignment is used to assess the unit, it must enable all:

- learning outcomes to be assessed
- grade standards to be applied

All assessments should be designed in such a way as to minimise the requirement for reasonable adjustments to be made.

Assessments must not require learners to produce evidence above and beyond that stipulated in the assessment criteria.

Centres must ensure that assessments briefs are internally moderated before they are issued to learners and must be available to the Diploma Moderators during their first moderation activity.

Further guidance on assessment can be found in the **Access to HE Provider Handbook** and the QAA **Assessment and Grading Handbook** [Sections B](#) and [Section C](#).

Grading standards

A new grade scheme with three new grading standards has been introduced from August 2024 replacing the seven grade descriptors. These standards will be used as the basis for all grading judgements on all courses. The three grading standards relate to different aspects of performance which are relevant to the assessment of a student's readiness for higher study. These are:

1. Knowledge and Understanding
2. Subject Specific Skills
3. Transferable Skills

Grading

- All units are subject to assessment via the assessment criteria.
- All level 3 units within the graded element of the Diploma (i.e. 45 credits with academic content) are graded: Pass, Merit or Distinction
- "Pass" is the achievement of all the assessment criteria in a unit.
- Further grading may be considered only when all the assessment criteria are met: the three grading standards are assigned to each graded unit.
- There are sub-components for merit and distinction for each grading standard.
- Where a graded unit is assessed by one assignment tutors must record the grade indicators for each grading standard for each assignment.
- Tutors must record the grade indicators for each grading standard for each assignment.
- The grading standards indicators (provisional grades) of all assignments for a unit make up the unit grade profile.
- There is NO overall assignment grade. The final grade for a unit is based on the grade indicators in the unit profile as a whole.
- All grade standards are of equal value.
- The final grade is determined by the median of the grade standards' grades.

For full details of grading regulations providers should consult the [QAA Grade Scheme Handbooks](#).

Deadlines

Providers must set deadlines for all work to be submitted for summative assessment. A schedule of assignment deadlines should be produced and shared with students. Students will be advised that the ability to submit work to deadlines is an essential requirement to progress onto higher-level programmes.

Access to HE Diploma (Law and Criminology)

www.aimgroup.org.uk
0333 034 8833

Feedback

Students must be provided with clear and constructive feedback which identifies areas of achievement and those where further work is required. Feedback to students should be recorded.

Extensions

Providers must have and clearly state a procedure for students to request an extension to a deadline, and the grounds for approval of an extension.

Late Submissions

If an assignment is submitted after the deadline without an extension having been granted and the work does not meet the learning outcomes, there is no opportunity for resubmission except via the referrals process.

Resubmissions

A first submission that fails to meet the assessment criteria is returned to the student (with feedback) for resubmission. Feedback must relate to the assessment criteria but may not make reference to the grade standards and components. Resubmission should be within a few days (no longer than a week) and be proportionate to the degree of non-achievement. A resubmission permitted for assessment criteria not achieved in the first submission can be considered for grading if submitted on or prior to the resubmission deadline.

Referrals

Requests for referrals will not normally be considered where the total credit value of the units which have already been achieved through referral or might be achieved as an outcome of a further referral, is more than 15.

A student whose resubmission fails to meet all the assessment criteria may request a referral ie the opportunity to make a second resubmission. The request is made to the assessor and Internal Moderator who will collate the evidence and subsequently convey the request to the AVA. The AVA informs the Centre of the decision. Referrals undergo assessment, internal verification and external moderation.

If the referred resubmission is successful and has been allowed as a third attempt (with no previous late submission) the assignment can be used in the grading of the unit (that is, the unit grade is not capped and should be graded accordingly). If the referred resubmission is successful and has been allowed as a result of a late first submission (that is, without an agreed extension or extenuating circumstances) followed by an unsuccessful resubmission the unit grade will be capped at pass (consistent with the penalty applied for a late submission).

A complete record of all requests for referrals and their outcomes must be provided for the awards board

Reasonable Adjustment and Exceptional Circumstances

Reasonable adjustments and special considerations are available for all assessments, irrespective of whether they are internally or externally set. Where a learner or group of learners may not be able to access the assessment without reasonable adjustments, centres should ensure that they apply in good time for relevant reasonable adjustments to be made, using the [AIM Qualifications Reasonable Adjustments and Special Considerations Policy](#) which gives clear guidance on the reasonable adjustments and arrangements that can be made to take account of disability or learning difficulty without compromising the achievement of the assessment criteria.

Extenuating Circumstances

Providers must have and clearly state an appropriate procedure for dealing with cases of extenuating circumstances, including:

- a clear definition of extenuating circumstances
- procedures that must be followed by students to notify providers of extenuating circumstances that affect the completion or submission of work for assessment
- procedures followed by providers when they have been notified of extenuating circumstances

In most cases notifications of extenuating circumstances may be handled at course level and appropriate action and decisions are taken according to the provider's procedures. Teams must document cases of extenuating circumstances and the action taken

Recognition of Prior Learning/Credit Transfer

Recognition of prior learning (RPL) and transfer of credit exist to enable students to avoid duplication of learning and assessment. A student may claim RPL or transfer of credit against a whole unit or several units. The potential for a student to undertake RPL or credit transfer relies on the PM carrying out effective interview and initial assessment of students to establish their previous qualifications and/or experience. Claims are made and considered on an individual basis and may be permitted where the units studied/credit previously achieved are within the rules of combination of this Diploma. The total proportion of credits awarded or exempted through RPL or credit transfer must not exceed 30 credits, that is 50 percent of the credits required for the achievement of the Diploma. Claims must be submitted to the AVA prior to registration of student,

Eligibility will be checked by the PM. RPL/credit transfer is likely to be permitted if the qualification/ credit achievement or experience has been gained within three years of starting the Access programme.

Appeals

Providers must have and clearly state an appeals procedure that students must follow if they wish to question an assessment decision upon receiving it. If a satisfactory conclusion cannot be reached, then the Access Coordinator/Manager or student may escalate this to the AVA.

Academic Misconduct

The importance of demonstrating the authenticity of their work and understanding the issue of plagiarism will be explained to students during the induction process. Should accepted practice be breached, providers should follow their institution's malpractice procedure.

Final Awards Board (FAB)

Following assessment of all students work, the provider must organise an awards board: a formal meeting held shortly after final moderation. The main responsibility of the awards board is the approval of the award of credits, grades and Access to HE Diplomas.

Please see the 'Access to HE: Final Awards Board Policy on the AIM website for further information.
